Charlotte's Story

Charlotte was a devoted Christian who had a passion for life and helping others. Those who knew her were blessed by her kindness. My mother was diagnosed with Alzheimer's at the age of 67. As the disease progressed, my father and I shared the duties as family caregivers. Due to the emotional strain, we decided to have someone come to our home and assist in her care. Fortunately, we were blessed and found just the right person for mom. Through all the challenges we have faced with my mother, I truly believe that God has placed angels in her life to take care of her. Through my experiences, I have learned that not everyone has been as blessed as my mother. This has become my mission, to provide quality home care that understands the needs of the family and awareness for the Alzheimer's disease. They always say things happen for a reason, now I know why, my mother's angels will carry on.
